

- 1) ADD the empty folders "ScrambleIn", "ScrambleOut", "UnScrambleIn", & "UnScrambleOut" to SDCARD.
- 2) The "scbs\_Bytes" file must be renamed to ".scbs\_Bytes", and should be write-protected.
- 3) The .SCB files in "TestFiles" were scrambled with "5555" key, that must be used to unscramble them!
